THE LEGISLATURE.

THIRTY-EIGHTH DAY.

WEDNESDAY, July 13, 1892.

HOUSE SESSION.

The Assembly was called to order at 10 o'clock for prayer. At 10:15 the minutes of the previous meeting were read and approved.

Noble Williams from the Printing Board reported Bill No. 108 printed.

Rep. Bush rose to a question of privilege and stated that he was to appear in using the name of J. H. Stelling as receiving pay for secret service on the place. He had found from written evidence and statements that he had done the person an unintentional injury by so using his name and he now desired to endeavor to counteract the effect of that statement.

Under suspension of the rules Rep. Kapahu presented a petition from the district of Kau that \$8000 be appropriated for roads in that district. To Committee on Public Lands.

From the same district the member presented a number of unread petitions which were referred to the Committee on Miscellaneous Petitions.

Minister Whiting moved reconsideration of the vote on Bill No. 88 so as to allow a correction, which being carried the correction was made and bill again passed to engrossment.

Rep. Koahou presented the following questions to the Attorney-General:

(1) Has during your incumbency any commission as police officer (special or otherwise) been issued to one W. Whaley, and if so please state date of commission and if said person still holds such commission?

(2) Have any commissions as police officer (special and otherwise) been issued by the Marshal or to any person not being a naturalized citizen of this country, and if so please state how many aliens hold commissions as police officers.

(3) Do you consider such commissions if issued to aliens valid and in conformity with our laws? If not, state why you issued them.

Representative R. W. Wilcox presented the following

RESOLUTION OF NON-CONFIDENCE.

Whereas, it has become an obvious necessity that immediate action be taken by Her Majesty's Government to obtain such relief as is possible for the country in the present disastrous financial crisis caused by the withdrawal of the commercial advantages which formed the consideration in the Reciprocity treaty between this country and the United States of America, and whereas, the present ministry have taken no action in the matter and have formulated no adequate foreign policy:

Whereas, the decrease in values and general depression in all branches of business render it necessary to reduce the current expenses of the Government and to find new sources of revenue and to provide for the more effective and economical application of funds to public improvements, and whereas, the Ministry has not only failed to propose any measures to meet the exigencies of the times nor formulated any policy for the coming period; but have unwarrantably delayed the business of the House and have hindered the efforts of individual members to curtail the expenses of the public service:

Whereas, in order to regain our commercial prosperity and to take the best advantage of our position and resources to secure general prosperity it is necessary that the Ministry should consist of representative men who have the support of the Legislature and the confidence of the people, and who can, by allying internal strife and discord, secure peace and harmony at home, and respect and consideration abroad, now therefore,

Be it Resolved, that the members of this Legislature do hereby express their utter want of confidence in Her Majesty's present Ministry.

The introducer said that the resolution was an important one and, as he desired to give the Ministry an opportunity to prepare themselves to answer, he moved that the consideration of the resolution be deferred until 2 p. m. this day.

Rep. Kamauloha considered that the importance of the subject demanded that it should be better circulated. He moved that the resolution be printed and distributed, and that the consideration be made the special order of the day for Friday.

Noble Baldwin agreed that the subject was an important one. He moved that the consideration be postponed until one week from Thursday, viz., July 21.

Rep. Wilcox withdrew his motion in favor of that of Rep. Kamauloha, and Rep. Kamauloha accepted the amendment of Noble Baldwin.

Rep. Bush considered that to-morrow would be time enough.

Rep. Kanehiki said that a week from Tuesday would be ample time, besides, as the steamer Australia left on Wednesday it would give the Ministers an opportunity to "skip out" if they desired.

Minister Parker said, in behalf of the Ministry, that there was no need of any delay. The Ministers were ready now and at all times. They asked for no concession of time; that was for the House to consider. As for the Cabinet their answers were ready now.

Noble Neumann thought that it would be advisable to get through with the consideration of the items of the Appropriation Bill before taking up the resolution. He favored a delay of two weeks.

Noble Macfarlane agreed with Noble Neumann. He did not consider it proper to propose a change of Ministry right in the middle of the consideration of the Appropriation Bill. If any change took place in the Cabinet now he considered that it would interfere with the good work now going on in the consideration of the Appropriation Bill.

Rep. Smith thought that it would be unwise to delay the consideration of the resolution for too long a time.

Rep. White was in favor of the matter being considered on next Tuesday. "We Hawaiians" have not had the same opportunity to make states that the members had had, therefore he would like a little time to try his hand at the matter. Tuesday would give plenty of time. There had been several distinguished arrivals in the country by the steamer Australia from San Francisco, (referring to Colonel Claus Spreckels who was seated on the floor of the House) probably some of those have come here and desired to try their hand at state making. (Roars of laughter and applause, Col. Spreckels acknowledging the "shot" by a wave of his hand to the speaker.)

On motion the consideration of the resolution was deferred until Thursday, July 21st.

Rep. S. K. Pua offered a resolution denouncing the Marshal and asking for his removal.

President Walker said that the resolution as presented was out of order.

Rep. Kamauloha amended the resolution so as to be directed to the Cabinet.

Rep. R. W. Wilcox moved that the resolution be considered on July 23rd.

Noble Baldwin moved that the resolution be tabled and, after some little argument on the matter of order, during which the President, Noble Neumann and Rep. Smith got into a tangle, the motion was carried.

Rep. Kamauloha, from a special committee on the bill "to create an additional port of entry," at Honolulu, Hawaii, reported to the effect that "we feel it is our duty to recommend for benefit of the public and the Government, that the said bill pass." Signed by Rep. Kamauloha, Nobles Hind and Williams. Tabled for consideration with bill.

Noble J. M. Horner from the Ways and Means Committee reported on Bill 33, relating to increase of revenue and to the effect that they had amended the bill and designated it as 33A. The new bill increased the duties on luxuries and was estimated by the committee to add \$20,000 to the public revenue. Tabled to await the minority report.

From the same committee, the same member reported on items of the Bureau of the Interior Department as follows:
